Research Vision

I am a Ph.D. candidate at ETH Zurich and the University of Zurich, advised by Elliott Ash, Mrinmaya Sachan, and Markus Leippold. I build **AI systems that know when to be trusted**—extracting the uncertainty a model already carries and **exposing it for human supervision**, so the model reports low confidence whenever it is likely to be wrong. Where uncertainty is **objectively checkable** I build non-agentic verifiers; where **labels are contested** I build uncertainty-aware classifiers, evidence-grounded specialists, and interfaces that surface the cases people must adjudicate. I am seeking **postdoctoral, industrial research scientist, and faculty** positions in trustworthy and reliable AI.

Selected Publications

* Equal contribution.

Invited Talks

2026 Invited talk / panel contribution, "Hard-to-Verify Reasoning," AI4Law Workshop @ ICML 2026. Workshop.

Mentoring & Supervision

I identify promising research directions and supervise junior students to deliver publishable work, coordinating fast-paced research collaborations.

Minjing Shi	MSc, ETH Zurich — "Tackling the Root of Misinformation by Teaching Laypeople about Logical Fallacies via Socratic Questioning and Critical Argumentation"; published at **ACL 2026**.
Adam Rahmoun	MSc, ETH Zurich — "Unlocking LLM Legal Reasoning with IRAC-Constrained Chain-of-Thought"; published at **AI4Law @ ICML 2026**.
Qing Dai	MSc, ETH Zurich — "A Benchmarking Framework for Information Retrieval in the Particle Accelerator Domain"; code & data released (2025).

Community Collaboration & Industry Experience

Research Intern, Qwen Application Group, Alibaba Group Jan 2026 – Jun 2026

Research on skill-based agentic self-evolving and combined RLVR/RLHF post-training.

Research Contributor, Apertus Open LLMs, Swiss AI Initiative Jun 2025 – Aug 2025

Trustworthiness and hallucination-reduction post-training for the Apertus series, a fully open and compliant suite of LLMs. Apertus report.

Community Collaboration, When AI Benchmarks Plateau Jul 2025 – Jan 2026

Contributed to an ICML 2026 study of benchmark saturation across 60 language-model benchmarks and design choices for more durable evaluation. Paper.

Academic Service

2024–2026	**Core Organizer**, ClimateNLP Workshop @ ACL — 1st edition (ACL 2024, Bangkok), 2nd (ACL 2025, Vienna), 3rd (2026); connecting academia and industry on how NLP can support climate-change science. nlp4climate.github.io.
2023–2026	**Reviewer**, ACL Rolling Review (ARR).

Education

2023 – present	**Ph.D. in Computer Science**, ETH Zurich & University of Zurich (D-GESS) *expected 2027* Advisors: Elliott Ash & Mrinmaya Sachan (ETH Zurich), Markus Leippold (UZH)	
2021 – 2022	**MSc. in Data Science and Machine Learning**, UCL	Distinction
2017 – 2021	**BEng. in Computer Science**, University of Hong Kong	1st Class Honours

Honors & Awards

2026	Oral presentations at ACL 2026 and EACL 2026 (selective).
2022	MSc awarded with Distinction, UCL.
2021	First Class Honours, University of Hong Kong.

Technical Skills

ML & NLP	LLM training and post-training (SFT, RLHF, RLVR), reasoning verification, uncertainty quantification, retrieval-augmented generation, large-scale evaluation.
Engineering	Large-scale HPC / Slurm experiment pipelines, distributed training, and data pipelines; Python, PyTorch.
