SUMMARY

ETH Zurich Ph.D. student specializing in trustworthy LLM applications, with a focus on self- or external monitoring of reasoning process and final answers; seeking internship in LLM reliability or related areas.

SELECTED RESEARCH

Self-Monitoring

- Jingwei Ni et al. (2025). Efficient Test-Time Scaling of Multi-Step Reasoning by Probing Internal States of Large Language Models. *ACL 2026 Long*. URL: <https://arxiv.org/abs/2511.06209>
- Jingwei Ni et al. (2025). Can Reasoning Help Large Language Models Capture Human Annotator Disagreement? *EACL 2026 Oral*. URL: <https://arxiv.org/abs/2506.19467>
- Jingwei Ni et al. (2025). DIRAS: Efficient LLM Annotation of Document Relevance for Retrieval Augmented Generation. *NAACL 2025 Long*. URL: <https://arxiv.org/abs/2406.14162>
- Jingwei Ni et al. (2024). AFaCTA: Assisting the Annotation of Factual Claim Detection with Reliable LLM Annotators. *ACL 2024 Long*. URL: <https://arxiv.org/abs/2402.11073>

External Monitoring

- Chengfei Xiong*, Jingwei Ni*, et al. (2025) Co-DETECT: Collaborative Discovery of Edge Cases in Text Classification. *EMNLP 2025 Demo*. URL: <https://arxiv.org/abs/2507.05010>
- Tobias Schimanski*, Jingwei Ni*, et al. (2024) Towards Faithful and Robust LLM Specialists for Evidence-Based Question-Answering. *ACL 2024 Long*. URL: <https://arxiv.org/abs/2402.08277>

PROJECTS AND INTERNSHIPS

Research Intern @ Qwen Application Group (Alibaba Group)

Jan 2026 - Now

Doing research on skill-based agentic self-evolving, and RLVR-RLHF-combined post-training.

1st, 2nd, and 3rd ClimateNLP Workshop @ ACL/EMNLP

[Official Website](#)

I am the core organizer of ClimateNLP 2024, 2025, and 2026 workshops which connects academia and industry to discuss how NLP can be incorporated in Climate Change science.

EDUCATION

2023 - present	Ph.D. in Computer Science @ ETH Zurich	-
2021 - 2022	MSc. in Data Science and Machines Learning @ UCL	Distinction
2017 - 2021	BEng. in Computer Science @ University of Hong Kong	1st Class Honours

SKILLS

Research Supervision	Identify research idea with good potential, supervising junior students to deliver publishable work. Coordinate fast-paced research collaboration.
Hands-on Research	End-to-end hands-on expertise in large-scale HPC systems, data pipelines, model training, evaluation, and uncertainty quantification.
